

Blu Studio HD 6.0 Rear Case Replacement

This guide is for removing the Blu Studio's back panel.

Written By: Erik reinbolt

INTRODUCTION

In this guide you'll be opening the back panel of your Blu Studio, this is the first step you'll take whenever you replace or add internal parts.

If you don't have any fingernails you may want to use the plastic prying tools.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Rear Case

- Begin by making sure your Blu Studio is turned off.

Step 2 — Back Panel.

- To begin the removal of your back panel, first locate the lift tab on the bottom-right corner.

Step 3

- Next, gently slide your thumb (or plastic tool if you prefer) down the seam running the length of your Blu Studio until the rear panel is completely removed.
- Your rear panel should be placed nearby and in a safe location until you are finished with your task.

To reassemble your device, follow these instructions in reverse order.
